

Professional Editing Services

➤ Photo Editing Services

What is involved: If you have any photos you would like professionally edited/color graded, we will provide a Google Drive folder for you to upload them into. We will then take those photos, do the necessary edits, and send them back to you.

Price: This may vary depending on the extent of the edits, but the general price point would be \$20 per photo.

➤ Video Editing Services

Example: [Alishia's Alaskan Moose Hunt](#)

What is involved: If you have videos you want compiled and edited into a final edit, whether for memory's sake or for social media, we can artistically do so to your liking.

Price: This would best be discussed to coordinate on an exact price.

➤ Photo Slideshow Creation

What is involved: You may want to compile a slideshow for a wedding, graduation party, funeral, or etc. Often, friends and family are too busy to put one together, or do not have access to adequate tools to do so. We have experience in putting these together professionally, emphasizing the satisfying, nostalgic feeling slideshows can give. We always like to add a personal touch. You will simply upload the desired photos and songs you want included to the provided Google Drive folder, and we take care of the rest.

Price: This would best be discussed to coordinate on an exact price, but the average rate would be \$300 for a 10-15 minute slideshow.

Feel free to share how we can best tell your story at jelani.ersland@gmail.com or (406) 599-3600.

We would love to coordinate with you!
