

## Photo/Video/Camera Tutoring and Consultations

*There are photography/videography classes, seminars, and online lessons, all of which are valuable learning tools, but you may want a level of personal touch. Are there questions/interests you have that are just too specific for a classic Google search? Can you just not figure out what is limiting your content's quality? We are happy to help you where we can.\**

### ➤ **Children and Adult Tutoring**

**What is involved:** Customized to you or your child's learning needs, we will examine the student's current understanding and organize a tutoring plan to help them get to the point they want. This can include video visits, field work, or in person instructional lessons, based on their comfort level and circumstances.

**Price:** \$50 an hour for adults, \$60 an hour for children.

### ➤ **Consultations**

**What is involved:** Whether you are just starting your first big job, wanting to make sure you have the proper lighting in a scene, have specific questions regarding your gear, or etc, we can plan a video/voice call or in person visit to help walk you through it.

**Price:** \$50 for a video/voice visit, \$100 for in person.

➤ **The Grandson Visit**

**What is involved:** As much as you want to be there when a family member needs help with their computer, tablet, phone, camera, TV, etc, you may not live nearby or have all the time you wish you did. We'd be happy to make a quick visit to get their tech running smoothly.

**Price:** \$50 a visit.
